

Alleged failure to take appropriate measures to address the issue of bee mortality linked to the use of neonicotinoids

Case opened

Case 512/2012/BEH - **Opened on** 28/03/2012 - **Decision on** 02/10/2012 - **Institution concerned** European Commission (Settled by the institution) |

Allegation(s)

The Commission failed to take appropriate measures to address the issue of bee mortality linked to the use of certain neonicotinoids, such as clothianidin, thiamethoxam, fipronil, and imidacloprid, despite the availability of new scientific evidence highlighting the risks involved in the use of these substances.

Claim(s)

The Commission should, in light of the new scientific evidence available, take appropriate measures to address the issue of bee mortality linked to the use of neonicotinoids. These measures could include reviewing the approval of the relevant substances pursuant to Article 21 of Regulation 1107/2009.
