

How the steel pipe sector was assessed in the context of the European Commission's revision of the 'State Aid Guidelines' for the EU's Emissions Trading Scheme

Case 971/2021/SF - **Opened on** 21/07/2021 - **Decision on** 15/07/2022 - **Institution concerned** European Commission (Dealt with by a Court) |

The complainant was concerned with how the energy consumption and CO2 emissions of the seamless steel pipe sector was assessed in the context of the European Commission's revision of the 'State Aid Guidelines' for the EU's Emissions Trading Scheme.

As the matter was subject to legal proceedings, the Ombudsman found no grounds to open an inquiry.
