Subject Consultation publique
Sear Sir,

I would like to say that I was shocked when reading the public consultation "Consultation publique sur le projet de déclaration des principes du service public pour les fonctionnaires de l'Union européenne".

I am a contractual agent in the Executive Agency Education and Culture since December 2009 and I am not counting my overhours (around 23 hours per month IN AVERAGE), I am fully dedicated to the public service role of the Commission, replying promptly to the questions of applicants, grant beneficiaries, external requests like student or citizen's requests etc...and I may tell you that I am NOT an exceptional case in my Agency.

It is unfair to blame all fonctionnaires of the EU when a few of them do not respect ethics or the rules. And it certainly not appropriate in such times when the Eu is highly criticized by populist politicians and media.

Content

I hope you will understand my concern and the reason why I write this message.

Yours sincerely,

Barbara Hermans

A true believer in what Europe brings and can still bring to the European citizens.
