

EUROPEAN RESEARCH EXECUTIVE AGENCY (REA)

The Director

Sent by e-mail only to:

Subject: Complaint 618/2026/AW – your proposal for a solution on REA’s refusal to give public access to a letter that it sent to a beneficiary regarding the recovery of EU funding

Dear Ms Anjinho,

Following your letter of 29 May 2026 regarding the above-mentioned complaint, I am pleased to inform you that REA adheres to your proposal for a solution to grant public access to the letter concerned, after the redaction of personal data.

I would, however, like to clarify that REA’s assessment of requests under Regulation 1049/2001 is strictly based on the information available at the time of the decision, including the content of the document concerned and the potential protected interests set out in the Regulation 1049/2001. The Regulation does not require the Agency to actively seek outside external sources or consider newspaper articles outside the framework of access to documents procedures. At the time of the assessment of the request for access to the document concerned, REA had no knowledge of the beneficiary’s reported press release.

I am pleased to inform you that in the context of another access to documents request [Ares(2026)5040614] from the same requester, REA has recently given public access to the specific document after the omission of personal data [Ares(2026)6462783].

My services remain at your disposal for any further information you may require.

Yours sincerely,

– e-signed –

EUROPEAN RESEARCH EXECUTIVE AGENCY (REA)

Subject: Outcomes of internal investigation Erasmus MC regarding Marie Skłodowska-Curie research projects funded by European grants, involving Percuros B. V._ (your reference RvB 500542)

Dear [REDACTED]

I acknowledge your letter addressed to [REDACTED] at the Common Audit Service (DG RTD) dated 24 June 2025. As the Granting Authority responsible for the implementation of the MSCA projects, it will be the European Research Executive Agency (REA) to provide you with the necessary support and guidance in this matter.

I welcome your proactive decision to initiate an internal investigation and commend your transparency in sharing the findings with us. I also acknowledge the corrective measures you have implemented, which reflect your commitment to accountability and continuous improvement. Your efforts to address the situation openly and constructively are very much appreciated.

The relevant services within REA have been duly informed, and they are currently analysing the information you have provided and their impact on the financial assessment of your participation in each of the concerned projects.

The responsible unit for each project will contact you shortly concerning the measures that REA intends to put in place to recover the undue EU contribution in compliance with the Grant Agreements.

Yours sincerely,

C.c.:
