Subject: Your letter on guidance for interaction with interest representatives

Dear Ms Gminder,

I have taken note of your letter of 14 December 2016 asking the EU institutions to comment on the draft practical guidelines, by which the European Ombudsman intends to provide EU staff members with recommendations regarding interaction with interest representatives.

In response, I observe that the draft practical guidelines address in an easily accessible way the obligations set out in Title II of the Staff Regulations concerning interactions between public officials and interest representatives.

Parliament is looking forward to the final version of the guidance to be adopted by the European Ombudsman.

Yours sincerely,

Klaus WELLE
